Footnotes: Data is for Calendar Year.

Note that 1996 data is not available at the county level due to early collection of the data which skipped every other year. Also of note, there is a break in the SAIPE time-series between 2004 and 2005 due to the switch from CPS ASEC to ACS data in SAIPE modeling. Comparisons across these particular years are not advised because of this break in series. Please see the Small Area and Income Poverty Estimates website for more information: <http://www.census.gov/did/www/saipe/methods/cautions.html>

	Total	Number	324

DEFINITIONS & SOURCES ^

Definitions: Number of funded enrollment slots for the Early Head Start or Head Start program. *(please see footnote for update)*

Data Source: Indiana Family and Social Services Administration; Indiana Head Start State Collaboration Office

Footnotes: Please note that this indicator was previously (before 2010) called "# of Head Start/Early Head Start Participants." While the number of slots per county represents how many children are being served, the actual number served throughout the year may be higher. This is due to the fact that a child may move or drop out of the program and the slot opens back up and then is filled by another child on the waiting list.

Totals include Migrant Head Start Program, which are available upon request.

Head Start data for SFY 2009-2010 contains slot information for Head Start and the Migrant Head Start Program together.

		Percent of cases that were substantiated	16.5%
	Physical	Number	24
		Percent of cases that were substantiated	4.0%
	Sexual	Number	33
		Percent of cases that were substantiated	12.8%

DEFINITIONS & SOURCES

Definitions:

There are two main categories of child maltreatment: abuse and neglect. Further distinctions within the category of abuse are sexual abuse and physical abuse. When referencing Indiana's data, it is important to note that a child is counted in only one category per investigation using the federal hierarchy of sexual abuse first, then physical abuse, and then neglect.

NEGLECT: The number of cases that following investigation by Child Protection Services were determined to be substantiated child neglect. Percentage of cases substantiated are those neglect cases, out of total investigated, that are considered substantiated child neglect.

SEXUAL ABUSE: The number of cases that following investigation by Child Protection Services were determined to be substantiated sexual child abuse. The percent substantiated is the total number of substantiated cases divided by the total number of investigations.

PHYSICAL ABUSE: The number of cases that following investigation by Child Protective Services were determined to be substantiated physical child abuse. The percentage of abuse are the number of substantiated physical abuse cases divided by the total number of physical abuse cases investigated.
